)**

On March 11, 2013, Plaintiff Sydrian Lofton ("Lofton") requested administrative relief from the scheduling order for cases asserting denial of right of access under the Americans with Disabilities Act ("ADA"). The scheduling order requires that a site inspection take place no later than March 27, 2013. Lofton indicated that the parties were unable to arrange a time before that deadline for the site inspection to take place. Accordingly, no later than April 26, the parties are to arrange a site inspection if they have not already done so.

**IT IS SO ORDERED.**

Dated:
